EXPERIENCE

Senior Machine Learning Engineer

Kargo

Oct 2025 – present

NY, USA / Remote

- Built production CTR and VCR prediction pipelines for programmatic advertising.
- Built internal tools integrating Claude Code and MCP to automate EDA and model evaluation workflows.
- Prototyped an agentic retraining pipeline for drift detection, retraining, and evaluation via LLM-driven automation.

Stack: Python, SQL, PyTorch, Hugging Face, ONNX, vLLM, LangGraph, Nvidia Merlin, Spark, Kafka, Aerospike, Pinecone, MLflow, Prometheus, Grafana, AWS, Kubernetes, GitHub Actions

Senior Machine Learning Engineer

Captify

Oct 2023 – Oct 2025

London, UK / Remote

- Built scalable multilingual classifiers across 600+ categories using transformer and embedding-based approaches.
- Architected RAG system with dense retrieval over multilingual embeddings for low-resource classification.
- Delivered GDPR/CCPA sensitivity classifiers via zero-/few-shot LLM; standardized reusable ML components via RFCs.

Stack: Python, SQL, PyTorch, Hugging Face, LangChain, ONNX, vLLM, Spark, Databricks, MLflow, Kafka, AWS, Kubernetes, GitHub Actions, Grafana, Prometheus

FreeNow, Lyft Group

Hamburg, DE / Remote

Nov 2020 – Oct 2023

Engineering Manager / Lead Engineer

Feb 2022 – Oct 2023

- Led a distributed ML team focused on pricing across Latin America.
- Defined quarterly goals with product and business stakeholders.

Senior Machine Learning Engineer

Nov 2020 – Feb 2022

- Built and deployed deep learning models for real-time dynamic pricing.
- Partnered with data engineering on feature stores and CI/CD for retraining.
- Integrated models into production with monitoring and performance tracking.

Stack: Python, SQL, Spark (batch/streaming), PyTorch, Hugging Face, KubeFlow, BentoML, Prometheus, Grafana, Kubernetes, AWS, Kafka, Argo CD, Argo Workflows, Airflow, GitHub Actions, Grafana, Prometheus

Machine Learning Engineer

VAIX – acq. by SportsRadar

Mar 2019 – Apr 2020

Athens, GR

Stack: Python, SQL, TensorFlow, Keras, Rancher, Docker, TensorFlow Serving, FastAPI, REST APIs, gRPC

Data Scientist

Blendo.co – acq. by Rudderstack

Feb 2017 – Mar 2019

Athens, GR

Stack: Python, SQL, Snowflake, Redshift, Postgres

EDUCATION

M.Sc. in Quantum Computing & Quantum Technologies

Democritus University of Thrace

Sep 2025 – present

- Ongoing GPA: 10.00/10.00

M.Sc. in Business Analytics

Athens University of Economics and Business

Sept 2016 – Dec 2018

- GPA: 9.16/10.00 (Summa Cum Laude)

M.Eng. in Electrical & Computer Engineering

National Technical University of Athens

Sept 2011 – Mar 2016

- GPA: 7.62/10.00 (Magna Cum Laude)

PUBLICATIONS

Conference Proceedings

- Michail, Papadimitriou et al. (2021). "Multiple-Tasks on Multiple-Devices (MTMD): Exploiting Concurrency in Heterogeneous Managed Runtimes". In: *Proceedings of the 17th ACM SIGPLAN/SIGOPS. VEE 2021*. Association for Computing Machinery, pp. 125–138.
